INTELLIGENCE SUMMARY

1 January 1951.

1. POLITICAL - The Activities of Albanian Emigres.

(a) Yugoslav-sponsored Resistance

Yugoslavia is still active in recruiting Albanian refugees for resistance activities.

In February 1950 source was approached by a representative from the Yugoslav Ministry of the Interior and asked to recruit Albanians from the SKUTLJE area to spread propaganda in Albania. The Yugoslav Authorities alleged that they had agents operating throughout the country, collecting information and spreading subversive propaganda. Their ultimate aim was to annex Albania to Yugoslavia.

Albanian refugees at PRESHEVA in Yugoslavia have recently been contacted by NIK SOKOLI, claiming to represent the Yugoslav Government, and asked to take part in a large-scale raid into Northern Albania. He claimed that the Yugoslavs would not only provide sufficient small arms for the raiders, but would make available a certain number of Yugoslav Specialist troops and supply further arms for the equipment of 4,000 sympathizers within Albanian territory. It is thought, however, that if the Yugoslavs were in good faith, they would not have chosen a man such as NIK SOKOLI as their emissary.

(b) Attempted Recruitment of Albanians for Italian Operations

Xhafer DEVA, the ex-Albanian Minister of the Interior and a member of the A.K.I., visited Istanbul at the end of November. He was contacted by FIENGA, head of Italian Naval Intelligence in Bari. During the visit, DEVA attempted to recruit thirty Albanians for a Special Mission and intended that they should return to Italy with him. The emigres would not concur to the proposal without reference to ex-King ZOG, and DEVA went back to Italy empty-handed.

(c) A Subversive Group in the Valona Area

In July 1950 a group of three men, equipped with wireless, was active in the VALONA area. Claiming to operate under the auspices of the "Western Powers", they were recruiting anti-government collaborators.

### (b) Ammunition Supplies

Ammunition is shipped to DURAZZO from the Baltic port of Gdynia in the following ships:

YSS "ROBERNIK"  
YSS "RALTYK"  
YSS "RIALYSTOK"  
YSS "NARVIK"  
YSS "LAWANT"

Czech "TATRA" lorries, as well as arms and ammunition of Soviet manufacture are also carried by these ships.
